

Dyslexia and the Early Years Foundation Stage

London – 10 October 2017

London – 26 April 2018

B.D.A. Training is pleased to offer a new training day for Pre School and Nursery Educators.

This day will explore what dyslexia is and why some children might struggle to meet the criteria of the EYFS.

10% of the population experience dyslexia and many children who are included in this number go unidentified throughout their education.

This one day training course will assist practitioners to understand the signs that will enable support to be offered early in a child's education.

The course outcomes are:

- To understand dyslexia & co-occurring difficulties
- To identify signs and indicators with EYFS children
- To identify potential areas of difficulty within the EYFS curriculum
- To identify and explore solutions to support learners with achieving EYFS curriculum

We can offer this course for all your staff at your location if you wish.

If you prefer you can come along to one of our open training days which run from 9:45 to 16:30 and the cost is £140 per person. Please contact us on the details below for details on course dates and locations.

Please email training@bdadyslexia.org.uk or call 0333 405 4565 for further information or to enquire about availability.
